PSC APPROVES WATER SYSTEM SALE

JEFFERSON CITY—The Missouri Public Service Commission has approved an application which authorizes the sale of the White River Valley Water Company (White River) water system to Public Water Supply District No. 2 of Taney County (PWSD). White River Valley Water Company serves approximately 130 water customers in Taney County near Forsyth, Missouri.

According to the application, the PWSD will connect White River customers to the PWSD's existing system using the rates that are currently approved for White River. In addition, the PWSD intends to apply those rates to customers in the White River system for at least 12 months.

The PSC Staff reviewed the application and recommended to the Commission that it be approved. Based upon that recommendation and a review of the application filed in this case, the Commission has concluded that the water system sale should be approved.
